EVERYTHING LOVELY IN CITY OF MEXICO

Everything is lovely in the City of Mexico, according to advice received yesterday by the Review from the Mexican consul at Naco, Arizona. He declares that stories telling of riotous behavior between President Huerta and Cal. Diaz have no truthful foundation; he also ventures to assert that in Mexico City there is no disturbance of any kind. The following letter to the Review shows the state of mind in which these declared false reports have left Consul Sierra:

Consulado en Naco, Ariz. March 31, Editor Bisbee Daily Review:—Some newspapers have recently published news reporting the alleged political differences they pretend exist between the provisional president of Mexico and General Felix Diaz, as well as the purported news of alleged disturbances in Mexico City. As all of these news are utterly false and lacking of all truth, I beg of you to be kind enough as to publish this letter in your valuable paper as an emphatic denial of such groundless tales.

Trusting to be favored with your courtesy, I anticipate my appreciation and remain,

Yours very truly,
EDELIA SIERRA
Consul of Mexico.

ST. DAVID PROSPEROUS WITH GOOD CROPS ON

Pioneer Rancher Tells of En- viable Conditions in Agri- cultural Section

J. T. Goodman, for thirty years a rancher in the San Pedro valley, principally in the beautiful and well-watered St. David colony, was a business visitor in the city yesterday.

"We have no reason to complain, and many reasons for feeling satisfied with our lot," said Mr. Goodman in an interview. "When we consider the hardships California experienced in the first part of the year through frosts that wiped out millions in crops and property values and the recent flood disasters that have caused so much life, crop and investment loss in the central west, we certainly have cause to feel mighty happy over our own good situation. An unusually late spring has probably hurt our apricots and peach crops some, but aside from this our crops are all in a fine way. We will have the finest apples and pears grown in Arizona, as we nip-snap, and our grain and hay crops are going to be good."

"Hay, alfalfa, is now bringing up \$15, baled, on the ground and is hard to get at that price. I do not think it is going to fall below that figure this year. Our market is a strong one. In Bisbee and Douglas particularly. Other hay growing sections of the state also have their strong markets, and if they have any surplus are nearer to the California and El Paso markets than we are and can take advantage of them. Of course we irrigate all our crops about St. David and are sure of yields. We have plenty of water to irrigate with and do not seem to reduce our artesian supply no matter how much we draw upon it. Recent seasons have brought plenty of water in the river, and we have the advantage of this, too. So we have much reason to be happy and prosperous in St. David, and I guess most of us feel that way about it. Anyhow, we don't think there are other localities in the west that have more reason year in and year out to feel better off than we do."

Another Bisbee Export.
Carpet making is an industry carried on in Bisbee that not a great many people know about and that few appreciate to be of extent and standing as a shipping proposition. Nevertheless V. J. Shearer at his carpet weaving shop on Laundry hill annually sends hundreds of yards of weaved carpets to Douglas, Tucson and other points in the state, besides working up carpets or many Bisbee patrons. Attention was drawn to this industry yesterday when Mr. Shearer made a single shipment of 300 yards of carpet made at his place to the Douglas patron. The work is of the best and is particularly desired by those who know quality in that line. Inasmuch as rag carpet is coming back in vogue as quite the thing, demand on the Bisbee maker is growing steadily.

Returns To Los Angeles.
Chas. Clawson, who has been in Bisbee for the past two weeks is leaving this morning to return to his home in Los Angeles. Mr. Clawson has a host of friends in this district who are all glad to meet him here. Mr. Clawson was mining superintendent for the Copper Queen for many years up to five years ago.

Baseball.
In the second series of the indoor baseball at the Y. M. C. A., the Bankers defeated the Miners 21 to 8, and the Professionals won from the P. D. 9 to 4. The next game will be played next week.

Sparta, Minn., March 25, 1913. To my Friends of Bisbee.
I wish to give my heartfelt thanks to all who so kindly helped me and children while I was in great need. I have been paralyzed for over a year and I cannot express my feelings in words toward those who so kindly helped us.

Sincerely yours,
JACOB MAHLA and
CHILDREN.

PROGRESSIVE CAUCUS

WASHINGTON, D. C., April 1.—The chairman about the capital are attending considerable importance to the caucus which the Progressives of the House will hold tomorrow for the purpose of organization. Not that the caucus itself will be of any very great importance, but it comes as

forebode reminder that there will be three separate and distinct political parties represented in the congress about to assemble. This fact in itself is almost without precedent, unless the presence of Victor Berger as the lone representative of the socialist party in the last congress be taken as a precedent.

ALBERT LAWRENCE KILLED

MEXICO CITY, April 1.—Albert H. Lawrence, manager of an American owned sugar plantation near El Potrero, Vera Cruz, was shot and killed today, the police allege by Charles Bailet, a Frenchman in his employ. Lawrence figured in Mexican news January last, when his property was attacked by rebels.
